

Control System

Features

- The HVAC control of the BT-50 has the following new features:
 - Newly designed control panel with larger dials

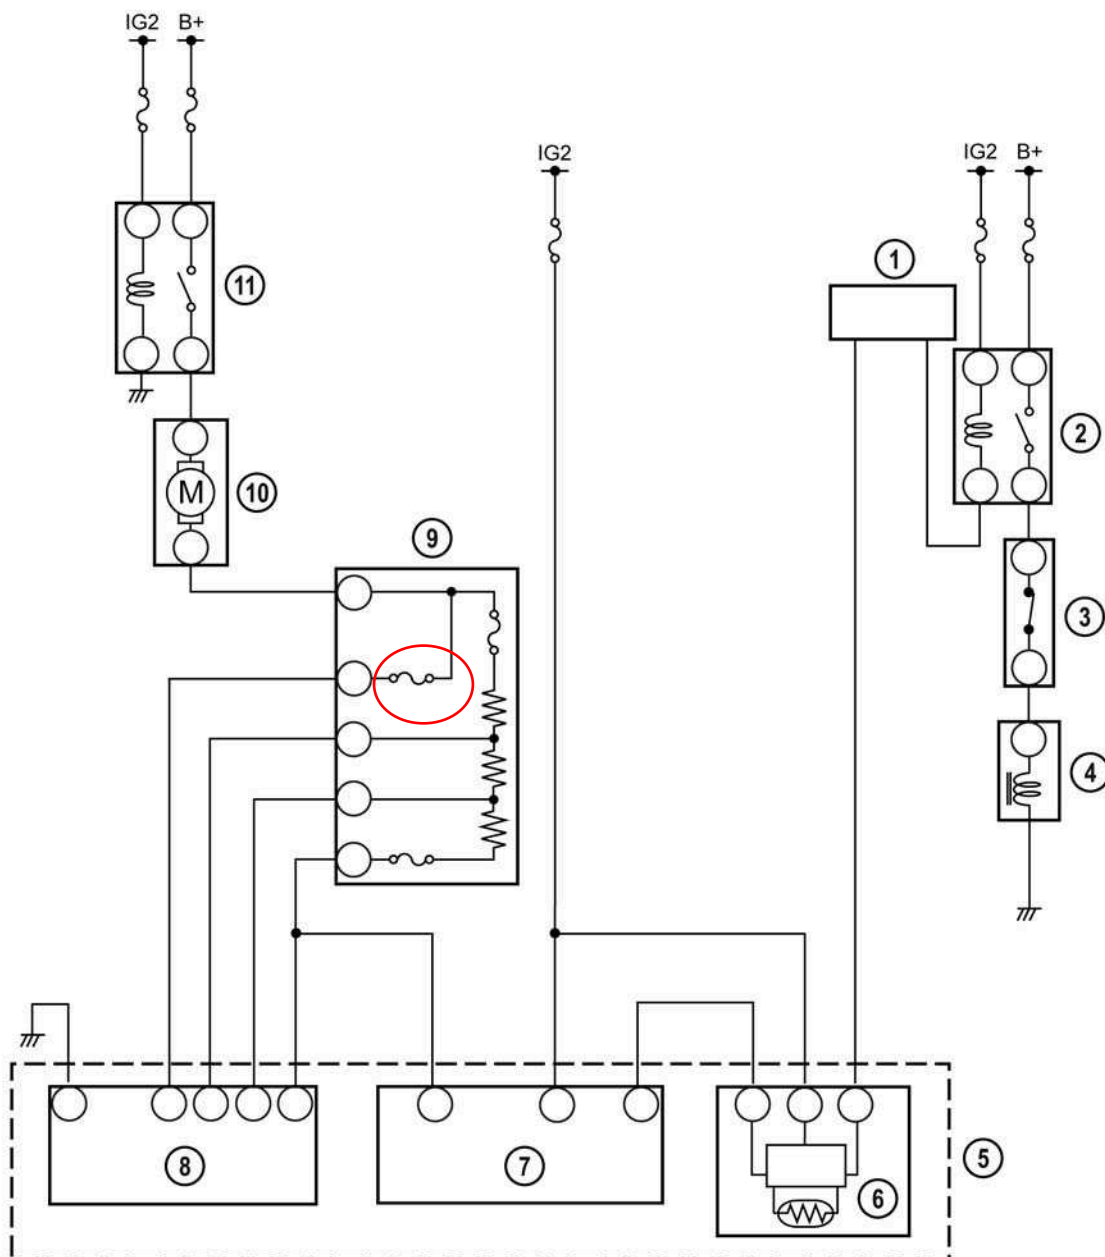

Parts Location

BT-50_07003

- | | |
|---------------------------------|-------------------------------|
| 1 A/C relay | 5 Blower motor |
| 2 Climate control unit | 6 Refrigerant pressure switch |
| 3 Evaporator temperature sensor | 7 Magnetic clutch |
| 4 Blower resistor | |

Wiring Diagram

BT-50_07004

- | | | | |
|---|--|----|-----------------|
| 1 | PCM | 7 | A/C switch |
| 2 | A/C relay | 8 | Fan switch |
| 3 | Refrigerant pressure switch | 9 | Blower resistor |
| 4 | Magnetic clutch | 10 | Blower motor |
| 5 | Climate control unit | 11 | Blower relay |
| 6 | A/C Amplifier / Thermoswitch (incl. evaporator temperature sensor) | | |
